Dear Ms. Clore:

This Notice of Violation (NOV) is to inform you of a violation of the Resource Conservation and Recovery Act, as amended (RCRA) identified during an inspection of Kenai Peninsula Soldotna Maintenance Shop located at 47140 E. Poppy Lane in Soldotna. This inspection was conducted on August 7, 2014 by the Environmental Protection Agency (EPA) and was performed pursuant to EPA's authority under Section 3007 of RCRA, 42 U.S.C. § 6927. The purpose of the inspection was to determine the facility's compliance with RCRA.

At the time of the inspection, the following violation was observed:

**Failure to Label a Container of Used Oil**

The regulation at 40 C.F.R. § 279.22(c)(1) requires that containers and tanks used to store used oil must be labeled or marked clearly with the words "Used Oil."

At the time of the inspection, the inspector observed the following violation of this regulation:

- There was an oil receiver located in the garage/shop that contained used oil. The receiver was not labeled with the words, "Used Oil."

At the time of the inspection, the inspector observed the used oil receiver being labeled with the words "Used Oil" correcting this violation.

**EPA Reservation of Rights**

Notwithstanding this NOV or your response, EPA reserves the right to take any action pursuant to RCRA, the Comprehensive Environmental Response, Compensation, and Liability Act, as amended (CERCLA), or any other applicable legal authority, including without limitation, the right to seek injunctive relief, implementation of response actions or corrective measures, cost recovery, monetary penalties, and punitive damages. Your response to this NOV does not constitute compliance with RCRA.

Nothing in this NOV or your response shall affect your duties, obligations, or responsibilities with respect to the Facility under local, state, or federal law or regulation.
